To Whom it may concern

Re: Contractor Reference for Richard Soan Roofing Services (t/a Rivercrest Ltd.), Davey's Lane, Lewes, East Sussex

I am writing this letter in reference to Richard Soan Roofing Services of Lewes, East Sussex.

Our company has worked with this Contractor on a number of educational projects over the last 5 years and within this period, have developed a good working relationship. We most recently worked with them in 2017 where they were appointed Principle Contractor on two large roof refurbishment projects within the educational sector. These projects were undertaken at schools in East Sussex and Surrey with Contract values of circa. £375,000 & £500,000 respectively. The work comprised replacement of both flat and pitched roof coverings along with various associated ancillary items of work. As Contract Administrator and Project Manager, I can confirm that both projects were delivered on time, within budget and to a high standard. The organisation, sequencing and delivery of the work was well executed and as a result, we have received positive feedback from both clients.

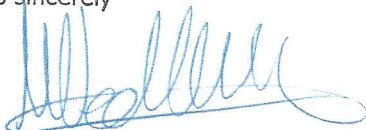

We have found that project Health and Safety is taken very seriously by Richard and his team and as such they are able to demonstrate compliance, understanding and most importantly, operative & staff training within relevant fields. They consistently fulfil their obligations under the CDM Regulations, from pre-construction and on site duties, through to post-completion compilation of file documentation.

I should also note they are able to demonstrate that necessary safeguarding checks of their operatives and management staff are carried out, which is important when working within the educational sector.

We would recommend Richard Soan Roofing Services as a competent, trustworthy, professional and personable organisation and look forward to working with them again.

I would be happy to discuss this reference with any party to whom this information is shared.

Yours sincerely

Michael Wedlake BSc (Hons)
Senior Building Surveyor
