Dear Richard

RE: SOLENT JUNIOR SCHOOL

Following completion of the reroofing works at Solent Junior School, I wanted to write on behalf of myself and the school to say thank you to you and all of your team who worked tirelessly on what, as you know, was a very challenging project for a multitude of reasons.

First and foremost, despite significant bad weather and the impact of COVID-19, it was remarkable that you were able to keep the site adequately resourced and moving forwards at all times in order to complete on programme.

Due to the restricted nature of the site, it was of vital importance that your operatives conducted themselves with stringent regard for the health and safety of pupils and staff at all times, and I am delighted that at no stage during the project were concerns raised relating to health and safety issues, whilst the continued 'can do' attitude of Callum and other operatives on site was one of several key drivers behind the success of the project.

As always, the quality of workmanship on both flat and pitched roofing elements was excellent, whilst associated works such as leadwork detailing, rainwater goods, brickwork repairs and decorations could not be faulted.

Finally, a word for Andre, who's diligence in overseeing the contract on a daily basis combined with regular, close liaison between myself, and the client, was another key driver behind the success of the project.

I know the client were extremely happy with the end result, as was I, and I would like to say a big thank you for all your effort and I look forward to our next project together.

Yours sincerely
