Dear Richard

RE: CHERRY ORCHARD CENTRE.

Further to successful and timely completion of the flat roofing works at Cherry Orchard Centre, Croydon, I just wanted to write on behalf of Philips Surveyors to say thank you to yourself, Danny and the rest of the team on site for yet another outstanding job.

As you know it was an extremely testing site from a health and safety perspective due to the restricted nature and given that many regular users of the site had learning difficulties and related issues, which required your operatives to give extra care and attention at all times.

The fact therefore that you were able to complete the works to such a high standard (first class leadwork) on budget, and then clear site ahead of the agreed completion date was fantastic and eased pressure on the Client who needed as much time as possible to prepare the site for their grand opening event following the recent interior refurbishment.

Communication, as always, was excellent and I received positive feedback on more than one occasion from the Client regarding Danny's attentiveness regarding the works taking place in relation to the ongoing operation of the Centre.

It goes without saying that I look forward to working with you again

Yours sincerely
